- § Empowerment
- § Passion for excellence
- § Teamwork

SERVICE OFFERED

- Ø Industrial construction division Oil ,Gas, Chemical & Petrochemical Project
- Ø Electro Mechanical Division
- Ø Mechanical Division
- Ø Rotating Equipment alignment Work

- Ø Static Equipment Erection, Centering,
Leveling& all type of Internal works.
- Ø Piping Division
- Ø HVAC System
- Ø Fire Fighting System
- Ø Erection Of Structure
- Ø Engineering & Consultant
- Ø Material Supply Division
- Ø Oil Pipe & Oil Field Division
- Ø Technical Support Service
- Ø Operation & Maintenance Service Division
- Ø UG & AG Pipe line and all other related works with piping.
- Ø Stainless steel works like SS tank, Ducting.
- Ø All type of Machining Works like Milling,Shaping,Turning,Boring
and all other related Works.
- Ø Heavy Equipment Erection Works.
- Ø Aluminium Fabrication works
- Ø Transportation Division
- Ø Marine Contracting Business & Shipping Service
- Ø Rent Car
- Ø Industrial Trading Division.
- Ø Electrical & Mechanical Project Division
- Ø Industrial & residential control solutions
- Ø Pressure Vessels & Tanks
- Ø Transportation Division

MES Mechanical Department is comprised of a technically strong, high qualified and extremely well- experienced team of multinational engineering professionals.

Mechanical department is fully conversant with national & international standards, codes, regulations, practices and local authority Requirements, particular SASO, SMACNA, ASHARE, ASTMN NFPA, UPC and UMC.

MES Mechanical Division Is Proud To Serve In Saudi Arabia For The Last 27 Years, Manage By Highly Professional Engineers, Technicians And Workforce W Skilled Ho Are Experts In The Field Of Oil And Gas, Pipping And Equipment And Erection Work. We Are Proud To Continuously Satisfy Our Clients By Providing All Necessary Mechanical Services That Best Suited With Their Requirements. These Are; Saudi Aramco, Sabic, Royal Commission, Sipchem, Tasnee, Satorp, Kemya ,Petro Kemya,IbnSina, IBN ZAHR And Counting.

Piping

MES Piping department is comprised of a large team of high qualified technical staff, fully conversant with national & international standards, codes, regulations, practices and local authority requirements. Our extensive experience encompasses both front end and first track engineering & design of grass root facilities and plant modification and expansions. Our specialization is in refinery, chemical, petro chemicals, fertilizers, power plants, industrial process& oil, Gas facilities.

For primarily process biased projects, the piping department leads the projects management & engineering, control, QA/QC implementation and client & inter –disciplinary coordination. For projects where the piping departments design input is pf a lesser nature than another discipline, full and committed support is provided on a task force or shared resource basis, structured to suit the projects requirements.

Electrical

MES Electrical Engineering Department provides specialized services to a number of clients with varied project requirements. Our extensive experience encompasses both front end and first track engineering and design of grass roots facilities plus plant modifications and expansions. Our encompasses building services, utilities, refining, power, industrial process, petrochemical, oil and Gas facilities. For projects where the electrical department's design input is of a lesser nature than another discipline , full and committed support is provided. Instrumentation & control systems

MES Instrumentation Department is a window to the world of instrumentation and control systems engineering and design, from conventional to advanced instrumentation, analog transmission to smart communication technologies, pneumatic controllers to distributed control systems, P & ID loops to model predictive algorithms, first order models to complex real time simulations, conceptual design hands to configuration and programming. Our capability and experience fully encompasses the entire length and breadth of the discipline on petrochemical, power, industrial, oil & gas projects, with our team high qualified, technical staff, fully conversant with national and international standards, codes, regulations, practices and local authority requirements.

Fabrication & Welding

To Support our valuable client we also deal with various kinds of maintenance jobs and fabrication works. Our Service Include:

Fabrication

Welding

Erection of Heavy & Light Structural Works

Equipment Platform

Carbon Steel, Alloy steel and Stainless Fabrication according to the drawings

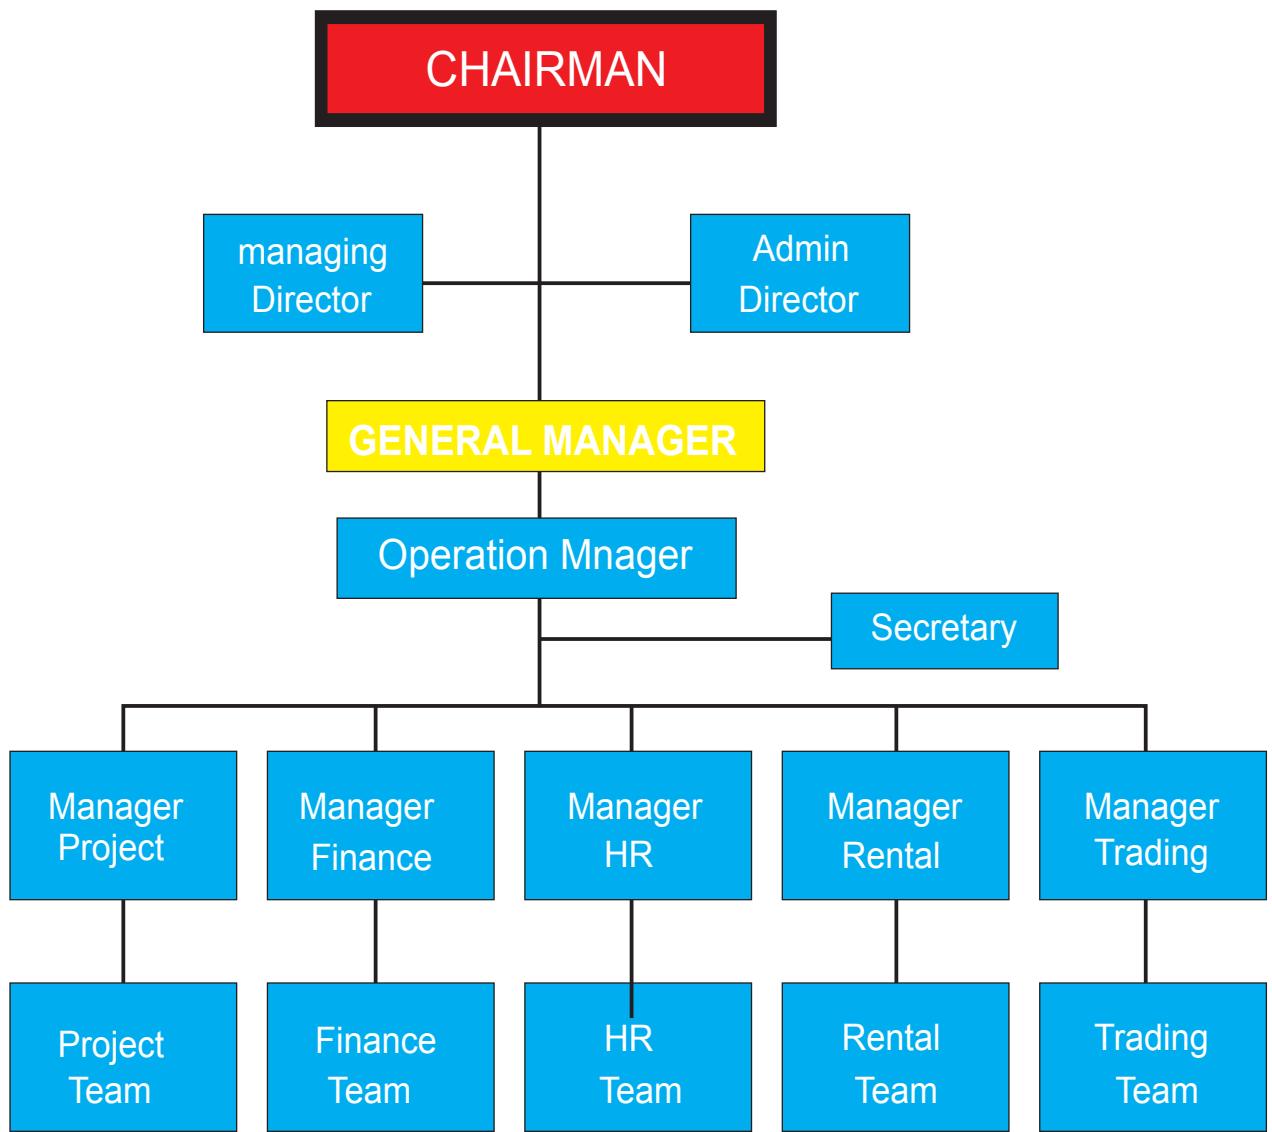

Customized requirement of our clients

Civil works

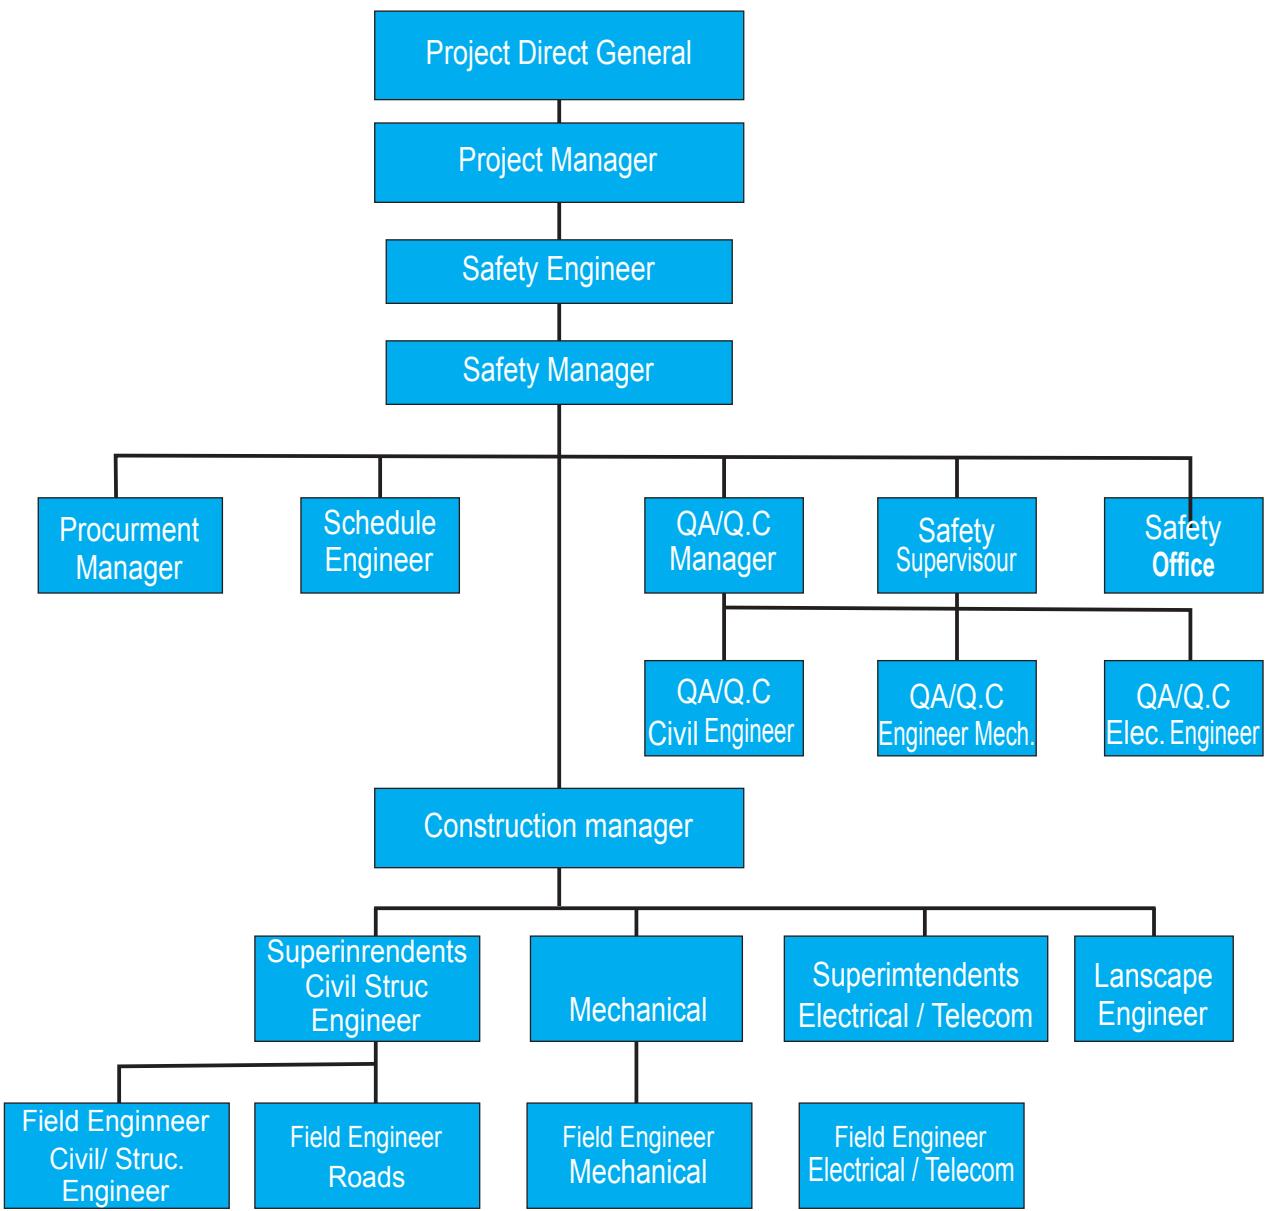

EQUIPMENT RENTAL

MES is well supported by very well established equipment rental department which supports to procure and scheduling of equipment for rental purposes to our valuable clients.
